DETAILED ACTION

Summary

On November 19, 2004, an Office Action was mailed to the Applicant rejecting claims 1-51. On February 22, 2005, the Applicant responded with arguments

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-51 are rejected under 35 U.S.C. 102(e) as being anticipated by Bam (US 2004/0083170), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed February 22, 2005 have been fully considered but they are not persuasive. The Applicant has argued that the Bam provisional reference does not qualify as prior art, because it does not disclose each and every element of claim 1. More specifically, the Applicant argues that Bam does not disclose "a point of sale device in communication with the communication network, the point of sale device being located at a particular origination location and configured to receive an identifier, the identifier including sufficient identifying information to allow the transaction provider to identify the customer's account, to receive a request from the customer to process a

money transfer transaction to a particular destination location, and to transmit the identifier and the request to process a money transfer transaction". In response, Bam discloses these elements on p.6-8 of the provisional application. Bam discloses the Vayusa security feature using one or more types of identifiers to be used in conjunction with the operation of a POS device. The money transfer transaction can be a transfer from the user's account to the vendor account for payment or various other transfer transactions.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
